

*Holds rolls securely. Moves them easily.*

Say goodbye to dollies, pallet jacks and sore backs. Designed specifically for grand- and wide-format printers, sign makers, and anyone responsible for lifting wide or heavy media rolls, the On-A-Roll Lifter™ will:

### Save Your Back.

No pulling. No heaving. No hefting. In minutes, with no strain to the back, you can lift heavy or wide rolls associated with today's larger and faster print runs. The On-A-Roll Lifter™'s sturdy steel construction allows the lifting of media up to 880 lbs. and up to 16.4 feet wide.

### Save Money.

Avoid costly and dangerous mishandling mistakes that result in damaged media by using the secure On-A-Roll Lifter™.

### Save Time.

What was once a two-person job becomes manageable by one, allowing a single employee to safely handle oversized and heavy media.

### Save Space.

Sleek and solid, the On-A-Roll Lifter™ is designed to operate in the tightest of shops – even those with limited floor space.

Roll any size media onto the Lifter and then directly on to your printer feeder.

## ON-A-ROLL LIFTER™

### Easy-to-Maneuver:

1. Nylon safety straps allow solo users to pull media rolls of up to 880 lbs. into the securing tray for transport.
2. The easy-to-use foot pump allows users to raise the material for transport with minimal effort.
3. Heavy-duty rotating casters allow users to navigate through standard doors and narrow passages.
4. Pushing awkward rolls around corners is no longer a concern.
5. Slide your media rolls right up to the printer for efficient loading.

Extended nylon safety straps provide leverage to help guide the roll into a specially designed high-walled transport tray and also ensure materials are secured for transfer.

The unique concave trough design of the transport tray seats oversized rolls and stabilizes them for transfer.

Foot pump allows for smooth, effortless lifting within minutes.

360° heavy-duty rotating (and locking) casters allow you to maneuver through standard doors and narrow passages.
